Privacy Notice – National screening and reporting programs

The NHS provides national screening and reporting programmes so that certain diseases can be detected at an early stage. These currently apply to bowel cancer, breast cancer, aortic aneurysms, and diabetic retinal screening service as well as other exempt programmes. The law allows us to share your contact information with Public Health England and NHS England so that you can be invited to the relevant screening programme and so that nationally exempted programmes can operate effectively with regards to public and patient health.

More information can be found at: https://digital.nhs.uk/services/national-data-opt-out/compliance-with-the-national-data-opt-out (select link for Data Uses and Releases Compendium) or speak to the practice.

1) Controller contact details	Amersham Vale Practice Suite 5 Waldron Health Centre Amersham Vale New Cross London SE14 6LD
2) Data Protection Officer contact details	Claire CLEMENTS NHS NEL CSU CLIFTON HOUSE 75-77 WORSHIP STREET LONDON GREATER LONDON EC2A 2DU 01323845786 claireclements@nhs.net
3) Purpose of the processing	The NHS provides several national health screening and reporting programs to detect diseases or conditions earlier such as cervical and breast cancer, aortic aneurysm and diabetes. More information can be found at https://www.gov.uk/topic/population-screening-programmes The information is shared so as to ensure only those who should be called for screening are called and or those at highest risk are prioritised.
4) Lawful basis for processing	The sharing is to support Direct Care which is covered under. Article 6(1)(e); "necessary in the exercise of official authority vested in the controller the processing is necessary to perform a task in the public interest. And

- Find the contact telephone number if you want to know any more or to set/change your opt-out by phone
- See the situations where the opt-out will not apply.

You can also find out more about how patient information is used at:

<u>https://www.hra.nhs.uk/information-about-patients/</u> (which covers health and care research); and

https://understandingpatientdata.org.uk/what-you-need-know (which covers how and why patient information is used, the safeguards and how decisions are made)

You can change your mind about your choice at any time.

Data being used or shared for purposes beyond individual care does not include your data being shared with insurance companies or used for marketing purposes. Data would only be used in this way with your specific agreement.

* "Common Law Duty of Confidentiality", common law is not written out in one document like an Act of Parliament. It is a form of law based on previous court cases decided by judges; hence, it is also referred to as 'judge-made' or case law. The law is applied by reference to those previous cases, so common law is also said to be based on precedent.

The general position is that if information is given in circumstances where it is expected that a duty of confidence applies, that information cannot normally be disclosed without the information provider's consent.

In practice, this means that all patient information, whether held on paper, computer, visually or audio recorded, or held in the memory of the professional, must not normally be disclosed without the consent of the patient. It is irrelevant how old the patient is or what the state of their mental health is; the duty still applies.

Three circumstances making disclosure of confidential information lawful are:

- where the individual to whom the information relates has consented;
- where disclosure is in the public interest; and
- where there is a legal duty to do so, for example a court order.
